Welcome To My Head

Wayland

Bend the spoon break the chain
Kill the curse living in my brain
I'm a voodoo doll stuck a thousand times
A shaman's pain, in my mind.Chorus
Shelter from the past going nowhere fast
Try to fight but I'm knocked down
Welcome to my head
Running from who we are won't get ya too far
Wanna fly but I'm shot down
Welcome to my headSilence comes like a scream
In the night crazy in my dreams
Minutes burn right through the days
Doing time in this mazeChorus
Shelter from the past going nowhere fast
Try to fight but I'm knocked down
Welcome to my head
Running from who we are won't get ya too far
Wanna fly but I'm shot down
Welcome to my head(Instrumental break)Shelter from the past going nowhere fast
Try to run but I'm shot down
Welcome to my head
Running from from who we are won't get ya too far
Try to fly but I'm shot down
Welcome to my head
