Who Do You Think You Are

Colette Carr

He make me go bombay badawadaway bom bom
He make me go bombay badawadaway bom bom
He make me go bombay badawadaway bom bom
He make me go bombay badawadaway bom bom

I'm feeling like I'm gone
He takes me and turns me on
It's like every single morn
I'm rushing too check my phone
Did he text or did he call
I'm slipping not trying to fall
But if it's all or nothing
Then eff it I want it all
But they saying he no good
And I know that they are right
But I can't help the fact that he's everything that I like
See I missunderstood
What I can't understand
Don't seem to have control cause this man

He make me go bombay badawadaway bom bom
He make me go bombay badawadaway bom bom

I don't wanna fall that far
Run away run away
There's something about that boy
Run away run away
He be playing games with my heart
Run away run away
Who do you think you are
Who do you think you are
Mr. Bigshot
He my corazon
I think he's different than other guys
But my intelligence is bugging
Telling me otherwise
Time too let em go
I'm thinking that it's done
But I'm the first to know

Now suddenly now it's on
They saying he no good
And I know the reason why
Don't know who you think you are
Trying to complicate my life
Out of sight out of mind
Guess that he was never myn
Now I'm running peace sign
Cause this guy

He make me go bombay badawadaway bom bom
He make me go bombay badawadaway bom bom

I don't wanna fall that far
Run away run away
There's something about that boy
Run away run away
He be playing games with my heart
Run away run away
Who do you think you are
Who do you think you are

Bombay badawadaway bom bom
Bombay badawadaway bom bom
Bombay badawadaway bom bom
Bombay badawadaway bom bom

He make me go bombay badawadaway bom bom
He make me go bombay badawadaway bom bom

I don't wanna fall that far
Run away run away
There's something about that boy
Run away run away
He be playing games with my heart
Run away run away

Who do you think you are
Who do you think you are
