

Live in Stereo

Newsboys

This field guide's got no soul
Digging for the sacred in a man-made hole
The soil gets harder, the shovel won't behave
I just dug myself into a six foot grave I need a new dimension, got to supersize
A Jacobean ladder to a parallel prize
The walks by faith, the sight lines lie
How am I gonna tag along with one tin ear and one glass eye? Well I, I can't get there from here when every
sense is in mono
Walk by faith you appear, I wanna live in stereo
I can't get there from here without a God directed go
Walk by faith you appear, I've gotta live in stereo I quit, I fold, I'm done trying to scale Everest
Sherpa-less ain't fun
The best-laid plans are in my other pants
The base camp's buried in an avalanche I need a new dimension, got to supersize
A Jacobean ladder, to a parallel prize
The walks by faith, the lone wolf dies
How am I gonna follow you with blue man ears and snow blind eyes? But I, I can't get there from here when
every sense is in mono
Walk by faith you appear, I wanna live in stereo
I can't get there from here without a God-directed go
Walk by faith you appear, I've gotta live in stereo Walk by faith from where you are I can't get there from, I
can't get there from
I can't get there from here when every sense is in mono
Walk by faith, you appear, I wanna live in stereo
I can't get there from here without a God directed go
Walk by faith you appear, I've gotta live in stereo
