Co-Song

Ten Foot Pole

We've been hiding out forever
Waiting to release all our energy
That's still inside
It's time to get it out
Get it out of me
Something new
I want to make this time special
Something for you
Playing as hard as we can
Grind out the energy
I want to scream again
So you can hear me singing through my hands
Release it
Let it go
Let it go
We've found a way to make up for the lost time
Turn it up and play it loud
Grind out the energy
