Joy Division

Feel it closing in

Feel it closing in

The fear of whom I call

Every time I call

I feel it closing in

I feel it closing inDay in, day out

Day in, day out I feel it closing in

As patterns seem to form

I feel it cold and warm

The shadows start to fall

I feel it closing in

I feel it closing inDay in, day out

Day in, day out I'd have the world around

To see just whatever happens

Stood by the door alone

And then it's fade awayI see you fade away

Don't ever fade away

I need you here today

Don't ever fade away

Don't ever fade awayFade away, fade away

Fade away, fade away

Fade away, fade away

Fade away, fade away

Fade away, fade away
