Where's Gerrold

Orgy

You're bright light and animated a demolition color scheme
Mismatched and complicated who put the hex on Mr. X?Living in a big top dimension you're the sucker of the mini world
I'd trapped in wonder land suspension transmissions from the micronaut girlWhere are you now?
And we'd like to think you found your own way home on your own
Where's Gerrold now?You're a visual illusion like Christmas a trend setter for the color blind
I think fast solution no way out I wash away with the crimson tideWhere are you now?
And and we'd like to think you found your own way home on your own
Where's Gerrold now?
And we'd like to think you found your own way home on your own
Where's Gerrold now?Transglobal spectacle with postmortem fame
Popsicle cannibal can you hear me?
Transglobal spectacle with postmortem fame
Popsicle cannibal can you hear me?Rainbow dementia smiles everyone smiles
The small realities of pixie play land
Find yourself in bright lights flashing
Cover my eyes, I'm feeling sick, I'm getting paranoidFind yourself with bright lights flashing
Cover my eyes, I'm feeling sick, I'm getting paranoid
Bright lights flashing and cover my eyes
Can you find youself, I'm feeling sick, I'm getting paranoidWell can you find yourself with bright lights flashing
With bright lights flashing
I'm feeling paranoid, I'm feeling paranoid
I'm feeling paranoid, I'm feeling paranoid
