

Too Pretty To Die

Die Happy

I'm like Alice
Your my wonderland
I've been seeing you upside down
If I could only make you understand
If I could only rub your frown out
Why you crawling on all fours today?
Haven't you still enough?
Heard those stories but a milion times
Waisting tears cause lifes too toughKill the Devel inside
Be paitent
You're to pretty to die
Just get rid of the dark temptaion
Kill the Devil inside
Devotion
You're addicted to lies!
Just get rid of the dark temptaionSick and tired on a sunny day
A testimony of complaints
Hungry living outta take away
Always standing in the rain
Dictionary full of give it ups
Heavy fortune on your back
I have seen those pictures many times
Screaming loud and you attackBurrning sun
Remember
Shines also in December
Not black and white
