

Not Tonight

Tegan and Sara

Love pull your sore ribs in
I will pull your tangles out
In the back of your car I feel like
I have traveled nowhere What will bring me home?
What will make me stay, stay?
What will bring me home?
What will make me stay, stay? Well, I don't know
I don't know, ooh
I don't know
I don't know, ooh Everything in my body says, "Not tonight"
Everything in my body says, "No"
Everything in my body says, "Not tonight"
Everything in my body says, "No" What will bring me home?
What will make me stay, stay?
What will bring me home?
What will make me stay, stay? Well, I don't know
I don't know, ooh
I don't know
I don't know, ooh
