Step Up

Kurupt

Aw, yeah Right about now it's time to get busy Huh, straight out the box, nonstop Kurupt the Kingpin, Xzibit, Crooked I Wait a minute, um This is the art of, manslaughter When I'm rockin', I'm more shockin' Than droppin' a boom box in bath water You entered the wrong scuffle You catchin' a chrome buckle I uppercut niggas hard enough To break my own knuckles Deliver the sick verbals My shotty spit around Before you hit the ground Your body spin around, in six circles Diminishin' infamous menaces I'm waitin' to get dicked, if not I'm a start finishin' innocents, lyrics I'm breezin' the region Freezin' G's in your legion Freakin' ancient techniques When I'm speakin' phoenician It's all about Crooked These bitches shout Crooked I'll make you say the West Coast Ain't shit without Crooked I own a vicious label, niggas'll get disabled When I'm spittin' rhymes written on project kitchen tables I load this 4-5 and let slugs dive at ya Now that's for Crooked I, the scrap happy, mic snatcha Motherfuckers can you dig that, huh? Can you fuck with this? Let's get Kurupt the Kingpin to fuck y'all niggas up Y'all don't wanna see none of this West Coast MC shit Yeah, how you like me now motherfucker? Terror starts, in the midst of your heart, starts The storm, my vocals float like arts

In the mystic state of mind, when I create a rhyme

My microphone massacres every year the same time
With audio amputations, vocal thoughts of a loud talker
Up against the microphone night stalker
With a tendency of bashing MCs, like ten of me
As you can see I continue mashin' MCs
Caboom, the room gets cleared as my views get clearer
Extra-terrestrial microphone terror
In effect, get infected
Tell me, "What the fuck you expected?"
These venemous injections
I leave whole sections and sections full of injections
From these poisenous melodies and selections

From these poisenous melodies and selections
I select the methods of slow anguish
I mangle shit with my language
Tell me, have you ever seen one elope
With the microphone

In a scandal like abilities to make MCs explode
Baboom, alone in my own zone
So don't compare me to none
Not one's nearly severe, 'cuz I severely
Impair MCs near me, oppose and fear me
I got plots and theories

Sincerely, I could have the spot locked Niggas get stoned for touching microphones With no knowledge on how to rock Yeah, back in effect, it don't stop

Turn your speakers up, DJ Battlecat on the table
We fuckin' it up like this and like that, yeah
Got my homeboy Xzibit in the motherfuccin' house, Alkaholiks

When I was enlisted
I came to the table double fisted
Sadistic, heavy artillery, for all my enemies
Bust shots up in the sky screamin' obscenities
Make niggas sport cackies and chucks from here to Italy
It'll be, a cold day in hell when you see Xzibit fail
Act like a bitch on bail, tuck tail, and run
See we do it how it can't be done
I'm the rough cut, plus how the west was won
Or direct descendant of the gatling gun

Don't test me, son, you fuck around and catch you one That ain't a threat, that's a promise I can definitely keep You can't compete wit' 25 niggas wit' heat in the street Ready to repeat, round after after round at you

All hell break lose when the whole pound come through
I found that you and yours, can never fuck wit' mine

I own shit but gimme some more like Busta Rhymes 'Cross the line, now you gotta pay the piper I'm The Alkaholik sniper, that be keepin' the crowds hyper It's ashes to ashes and dust to dust Can't stop till me and my niggas is platinum plus My Dogg Kurupt Yeah, no shit Yeah, y'all can't fuck wit' that That's what I'm talkin' about West coast, we been doin' this shit for years Aint nothin' happenin' wit' that Battlecat, right Whatcha say? Motherfuckas that be hangin' in the battle That's what I'm talkin' about Daz Dillinger Break it down, break it down Motherfuckas can't fade this shit
