

# Sing About Love

## Chumbawamba

I dont want to sing about anger and hate  
I dont want to sing about fear and defeat  
I dont want to sing about the things I always sing about  
I wish I could sing about loveI dont want to sing about war and greed  
I dont want to sing about those we cant feed  
I dont want to sing about the things I always sing about  
I wish I could sing about loveI dont want to sing about suffering and pain  
I dont want to sing for another campaign  
I dont want to sing about the things I always sing about  
I wish I could sing about loveI dont want to sing about rights and wrongs  
I dont want to sing all the same old songs  
But Ill sing them, and sing them til theres no need to sing them  
And then I can sing about love
