

Sing About Love

Chumbawamba

I dont want to sing about anger and hate
I dont want to sing about fear and defeat
I dont want to sing about the things I always sing about
I wish I could sing about loveI dont want to sing about war and greed
I dont want to sing about those we cant feed
I dont want to sing about the things I always sing about
I wish I could sing about loveI dont want to sing about suffering and pain
I dont want to sing for another campaign
I dont want to sing about the things I always sing about
I wish I could sing about loveI dont want to sing about rights and wrongs
I dont want to sing all the same old songs
But Ill sing them, and sing them til theres no need to sing them
And then I can sing about love
