

# Motorhome

## Jackie Greene

Well I looked out my window, what did I see  
two lean wolves staring back at me  
So i took off down the road alone  
    in my motorhome  
I ain't got no garden in my backyard  
    but i got a view of the boulevard  
        I can play music  
in my motorhomeForever I'mma gonna wander  
    forever I'mma gonna run  
        I will sleep like a baby  
            in my motorhome  
That's rightWell I used to pay the rent on a tiny place  
    it wasn't long before I needed more space  
so I went down and I got the loan and bought me a motorhome  
    Well don't let your neighbors bring you down  
        if you don't like 'em you can just leave town  
say adios, farewell, so longForever I'mma gonna wander  
    Forever I'mma gonna run  
        I will sleep like a baby  
in my motorhomeForever I'mma gonna wander  
    Forever i'mma gonna run  
        I won't sleep on a bed of nails  
            in my motorhome  
        Well i looked out my window  
        two mean wolves staring back at me  
        so I took off down the road alone  
            in my motorhome
