

Hot Like Sauce

Pretty Lights

It's so hard to tell all the scrambled stuff.

Then there's the badass part with the chic. Some things i have no clue about... They're in parenthesis.

(so magical), unmatched, spectacular, unbreakable

You shakin me, not probable

Ya'll get ridiculed for even tryin to con me

(so magical), unmatched, spectacular, unbreakable

You shakin me, not probable

Ya'll get ridiculed for even tryin to con me

It's got some "gonna make you sweat, gonna make you groove" from black dog (zeppelin)

Don't drop it in me league at all, don't speed you'll fall

Fake b*tch fake t*ts fake (cleave n all...Leave it all)

Whats wrong wit ya

Don't start no mess today

Gung ho just put your toast away

Have a drink on me

I got tricks to play

Twist tops, straight shots, (hand rockin?) effects

Your still no good

Still around the way

Tighter than your grandma's vagina

What are they?

Haha they *** words... This song just screams "i'm a bad mother...Shut your mouth!" and he sooo is
