Where Are You David

Anna Aaron

Where are you David
every man in the city tells me hes made it
is there a brave man anywhere baby
As the voice is getting louder
who can even touch his shadow
Where are you is it in the news
do I have to be good do I have to be
somebody new
Where are you David
every man in the city tells me hes made it
is there a brave man anywhere baby
On the floor down like no other
bloody not too much to suffer
Where are you is it in the news
do I have to be good do I have to be
somebody new
Where are you David
every man in the city tells me hes made it
theres no one whos righteous anywhere baby
