Stay

C.C. Catch

Daydreamers
Lightely broads
ABC of love to me
Troubles stole my paradise, maybe
Love will hurt, it's lovely
It's too hot too stop maybe
Stay with me tonight
Keep love alive
Stay, and listen to your heart
I'm hungry for your love
You always play a game tonight
Two round never make it right
Oh baby, stay
I wanna be your heart
Let's try a brand new start
'Cause I'm the one to be your love
I dry the tears I never show
Wasted days, wasted nights
Save my love for you
Always right
They want your love, it's true
Almost fire of desire
On the wings of love to me
Stay by me tonight
Only love survive
