Cocaine (feat. Left Brain)

The Internet

Advisory - the following lyrics contain explicit language:

hey baby ,where you goin ?
You look good to me..You look good to me
Walking by yourself. Maybe I can help
I wanna , I wanna
Do you wanna do some Cocaine
I wanna , I wanna
Do you wanna do some Cocaine
Baby just ignore all the consequence
You look like you can use a little confidence
So follow me and then you'll be in paradise
And now that you know what the feelings like
You know you can have itor the rest of your life
Just follow me ... Just follow me
She high as fuck up in my truck
Shocked up lookin for a bitch to fuck
I'm high on coke, She high on coke
Coast to coast baby float my boat,
got coke to sniff and weed to roast.
Boast no need to boast
Let's Snort
Two in the back, One in the front
do you wanna ride in my car
I wanna , I wanna
Do you wanna do some Cocaine
I wanna , I wanna
Do you wanna do some Cocaine
Aye, Dont trip, Just try it once , dont worry, just follow me
Baby just ignore all the consequence
You look like you can use a little confidence
So follow me and then you'll be in paradise
And now that you know what the feelings like
You know you can have itor the rest of your life

Just follow me ... Just follow me
