

# Next Level

Stephen Jerzak

im so so stuck  
stuck and out of luck  
i need a little oh oh oh oh  
im so so sick  
sick of broken love  
i need a little oh oh oh oh  
but but but you put me up doing the simple stuff  
we dont need anyone to show the way  
you know that im good with it  
i think it's a pefect fit  
0 to 60 and i like your oh oh oh uh uh oh oh oh uh uh oh oh  
come on change it up it's not enough  
gonna take it to the next level (next level) to the next level (next level)  
turn it up a knotch dont let it stop  
gonna take it to the next level (next level) to the next level (next level)  
you could be standing on the sidelines forever (forever)  
you could be standing on the sidelines forever  
or we could take it to the next level (next level) to the next level (next level)  
to the next level (next level) oh whoahh to the next level  
its so so true  
im flippin out with you  
we've got a little oh oh oh oh  
it's so so right  
top of the world tonight

we've got a little oh oh oh oh  
and you put me up doing the simple stuff  
we dont need anyone to show the way  
you know that im good with it  
i think it's a pefect fit  
0 to 60 and i like your oh oh oh uh uh oh oh oh uh uh oh oh  
come on change it up it's not enough  
gonna take it to the next level (next level) to the next level (next level)  
turn it up a knotch dont let it stop  
gonna take it to the next level (next level) to the next level (next level)  
you could be standing on the sidelines forever (forever)  
you could be standing on the sidelines forever  
or we could take it to the next level (next level) to the next level (next level)  
to the next level (next level) oh whoahh to the next level

well i cant believe my eyes  
but you shouldnt be surprised  
if this is an endless night  
oh oh ohhhh  
come on change it up it's not enough  
gonna take it to the next level (next level) to the next level (next level)  
turn it up a notch dont let it stop  
gonna take it to the next level (next level) to the next level (next level)  
you could be standing on the sidelines forever (forever)  
you could be standing on the sidelines forever  
or we could take it to the next level (next level) to the next level (next level)  
to the next level (next level) oh whoahh to the next level
