

Walk Away

Kristine W

You tell me that I was created for you
That nobody else makes you feel like I do
And I want to believe that it's true
When you make all of these promises
Fabulous plans, you fill me with hope
Painting pictures so grand
But why after all of this time
Don't I know where I stand
Don't you know
What you stand to loose
If you don't
Then you're still confused?
Walk away
If you're not here to stay
'Cause I care about myself too much
And I've heard enough
Walk away
'Cause I'm not here to play
And if you're not really free to love
If you don't need my love
Then turn and walk away
You asked for my heart
And I gave you much more
Unselfish devotion
And emotion so pure
But how can you still be unsure
Well, if I'm not the one
Then stop wasting my time
Give back the part of the heart
That was mine
But know that another love like me
You'll never find
Don't you know
What you stand to lose
If you don't
Then you still can't choose?
Walk away
If you're not here to stay
'Cause I care about myself too much
And I've heard enough
Walk away
'Cause I'm not here to play
And if you're not really free to love
If you don't need my love
Then turn and walk away
I know that I will find someone who does
Someone who loves me just because
But if that would be too much
For you, then walk away
Walk away, walk away, walk away
Then walk away, then walk away, then walk away

Then turn and walk away
If you're not here to stay
'Cause I care about myself too much
And I've heard enough
Walk away
'Cause I'm not here to play
And if you're not really free to love
If you don't need my love
Then turn and walk away
Turn and walk away
