

Dogs Rule the Night

[Porno for Pyros](#)

Dogs they roam
Remember where their home is
Everyone they meet
Chase away their enemies
Hang out in the shade
Always in the shade
When it's time to mate they're
Not too particularDogs they rule the night
They rule the night
Dogs they rule the nightFinish every meal
Settle for a snack
Chasing cars
Like to hang out in the parkDogs they rule the night
They rule the night
Dogs they rule the nightDogs they rule the night
They rule the night
Dogs they rule the nightIn the pack they're very brave
They're very brave
And then after dark
Underneath the moon
Know what I mean?
Ever watch 'em go?
In to town when the sun goes downDogs they rule the night
They rule the night
Dogs they rule the nightDogs they rule the night
They rule the night
Dogs they rule the night
