It Pays

Desmond Dekker

Oh Lord, it's youIt pays, it pays
Every man, every woman
Every boy, every girl
Been this way downTo do good
I wish you try to do good
I wish youIn the morning you leave your home
And now it's time to go back home
Is what I heard early this morning
Without even getting a warningIt pays, it pays
Every man, every woman
Every boy, every girl
Been this way downTo do good
I wish you try to do good
I wish youIn the morning you leave your home
And now it's time to go back home
Is what I heard early this morning
Without even getting a warningIt pays, it pays
Every man, every woman
Every boy, every girl
Been this way downTo do good
I wish you try to do good
I wish you
