

Spark the Fire

Gwen Stefani

Coming down, ooh, I had a blast
But you know what they say, the high will never last
But I believe that they all got it wrong (they're wrong)
So sprinkle some more love right here where it belongs so
(You guys ready? Let's go/Here we go)Who got the lighter, let's spark the fireO.M.G, O.M.G, I'm back again
Original feel good is what I defend
I'm a believer no I don't pretend
Know what it's like when you look up and grin
The person next to you feel the energy
Let's lift them up even high as can be
Finally remembering what is me
That is what happens when I get with PHang it up my cloud (Say what?)
Hang it up my star (Say what?)
Stay above the crowd (Say what?)
Or make your way back down (Say what?)Hang it up my cloud (Say what?)
Hang it up my star (Say what?)
Stay above the crowd
Or make your way back downWho got the lighter, let's spark the fireLet's go hot let's go hot hot as can go
It is time for the girls species to grow
2015 we take off our shells
I am a Libra let's balances the scales, L.O.L.
The world should get ready cause we will prevail
Somebody has to so maybe it's me
Say this was me and raise back and seeHey! Get off my Cloud! (Say what?)
Hey! Get off my style! (Say what?)
Stay above the crowd (Say what?)
Or make your way back downHey! Get off my Cloud! (Say what?)
Hey! Get off my style! (Say what?)
Stay above the crowd (Say what?)
Or make your way back downWho got the lighter, let's spark the fireSomethin's tellin' me
It takes a tribe of super glue LUV
Was losing focus
Life's a perfect Lego piece
Got new glasses on so finally I can see
Spark the fireHey! Get off my Cloud! (Say what?)
Hey! Get off my style! (Everybody get up)
Stay above the crowd (Let's go)
Or make your way back downHey! Get off my Cloud!
Hey! Get off my style! (Everybody let's go)

Stay above the crowd
Or make your way back down (Here we go) Who got the lighter, let's spark the fire
