

# Barely In Love

## Q-Tip

She only likes it when it's hot. She doesn't like the cold.  
She said I got a bright idea, "Let's go to Mexico."  
\$500 in the bank, things are looking bad.  
Imagine if we gotta eat, things are looking sad.[Chorus]  
Barely in love  
Barely in loveShe looked into the sun and said,  
"What's on your mind?"  
Whee, ha, lookatiaa, lookatiaa,  
Sun shining all the time (sun shining all the time)  
She picked up the fan and let the trailer go  
She only likes it when it's hot.  
Doesn't like it when it's coldWhen you really think about it, love is truly powerful  
The undeniable, of course, that makes it magnetic  
And you can't explain it, you do what you do  
Can't nobody play the fool like (something something something?)
