

# Against the Odds (Mike Hawkins Remix)

## Christopher

You sent out an S.O.S, I'm responding  
Emergency unit's on the case  
Another heartbreak has got you hurting  
Hold on, the help is on the way  
If there's a lifeline to, help you make it through  
And lift you up every time you fall  
I'll be the lifeline to, come and rescue you  
If you need me, I will answer when you call  
So say eh oh, eh oh  
Come on and just let it go  
I wanna stand with you against the odds  
Let me be the one, that you can trust  
Say eh oh, eh oh  
Come on and let me know  
We don't have to run against the odds  
We have a lifeline right in front of us  
Say eh oh, eh oh  
Say eh oh, eh oh  
Eh oh  
All your hope and dreams came crashing down, down,  
It's hard to face the day  
Hold on and listen for the sound, sound, sound  
Of my love it's on the way  
If there's a lifeline to, help you make it through  
And lift you up every time you fall  
I'll be the lifeline to, come and rescue you  
If you need me, I will answer when you call  
So say eh oh, eh oh  
Come on and just let it go  
I wanna stand with you against the odds  
Let me be the one, that you can trust  
Say eh oh, eh oh  
Come on and let me know  
We don't have to run against the odds  
We have a lifeline right in front of us  
Yeah, no more hiding  
I'm here to keep you safe, from the cold  
I hear you crying, now I'm pleading  
You don't have to walk this road all alone  
So say eh oh, eh oh  
Come on and just let it go  
I wanna stand with you against the odds  
Let me be the one, that you can trust  
Say eh oh, eh oh  
Come on and let me know  
We don't have to run against the odds  
We have a lifeline right in front of us  
So say eh oh, eh oh  
Come on and just let it go  
I wanna stand with you against the odds

Let me be the one, that you can trust  
Say eh oh, eh oh  
Come on and let me know  
We don't have to run against the odds  
We have a lifeline right in front of us  
So say eh oh, eh oh  
Come on and just let it go  
I wanna stand with you against the odds  
Let me be the one, that you can trust
