

.Cherbourg

Beirut

And a fall from you
Is a long way down
I've found a better way out
And a fall from you
Is a long way down
I know a better way out Well it's been a long time
Since I've seen you smile
Gambled away my fright
Till the morning lights shine Well it's been a long time
Since I've seen you smile
Gambled away my fright
Till the morning lights shine Sunday morning
Only fog on the limbs
I called it again
What do you know
And I filled our days
With cards and gin
You're alright again, my dear
