

# Killer Parties

## The Hold Steady

If they ask about Charlemagne  
Be polite and say something vague  
Like another lover lost to the restaurant raids  
If they ask, why we left in the first place  
Say we were young and we were so in love  
And I guess we just needed space  
We've heard about this place they called the United States  
And we found out Virginia really is for the lovers  
Philly, full of friendly friends that will love you like a brother  
Pensacola parties hard with poppers, pills and pepsi  
Ybor city is tres speedy but they throw such killer parties  
Killer parties almost killed me, killer parties almost killed me  
And if she says we partied then I'm pretty sure we  
partied  
I really don't remember, I remember we departed from our bodies  
We woke up in Ybor city  
If she says we partied then I'm pretty sure we partied  
And I really don't remember, I remember we departed from our bodies  
And we woke up in Ybor city  
If she says we partied then I'm pretty sure we partied  
And I really don't remember, I remember we departed from our bodies  
And we woke up in Ybor city
