## I Want More

## **Faithless**

Hey friend your misery bewilders me

How come you're never satisfied or gratified

Four walls and a roof, electricity, stable mind, wife a

Four walls and a roof, electricity, stable mind, wife and child

Hot and cold water to run anytime but still you whineI want moreA bum could rummage through ya bin
And live like a king on just one crumb of ya cake

And ya say ya life needs fulfilling

Some would give anything to live like youShame your mind, don't shine like your possessions do

Whining, complaining all the time don't see no rain on you

What side your bread is buttered on If only you knewWhat do ya mean

I want more

YepI was told as a child

I want more never gets

Learned to count my blessings

Long before I saw an abacusSo what ya family don't speak

At least they're alive

Show me a man without guilt

Or a soul that ain't liedYou don't know what ya got

Open your eyes, look around

Really, hear me you

Ain't got no reason to be downWhat do ya mean

I want more Friend what is it that you seek

What is it that you try to find

Someday I hope you realized

It shined in you all the timeHills to climb, sights to see, seas to cross

Friends to make, hands to shake, the world is yours

Foods to taste, sounds to hear, love to feel

Seeds to sew, things to know, fish to reel

Space to quiz, stones to lift, life's a giftWhat do ya mean

I want more

YepWhat do ya mean

I want more

Yep
