

Whatever

Debelah Morgan

Boy you think you got me
Just where you want me
You know just what I need I just want someone
Someone who loves me
Who loves me just for me But sometimes I feel inside
Like you don't really love me and you never love me right
Then come on and love me right
Come and get me if you own me
I can't wait any longer Whatever you want
Whatever you need
I wanna be the one that gives it to you
The longer it takes
The more my heart breaks
Don't be a fool boy don't make me wait Whatever
[whatever baby] Come and share my world
Come and love me I wanna be your baby girl
Don't keep me waiting too long boy
'Cause I'll turn around and leave you alone But sometimes I feel inside
Like you don't really love me and you never love me right
Then come on and love me right
Come and get me if you own me
I can't wait any longer Whatever you want
Whatever you need
I wanna be the one that gives it to you
The longer it takes
The more my heart breaks
Don't be a fool boy don't make me wait Whatever you want
(Whatever)
Whatever you need
(ooh)
I'll be right there to carry you
Don't play me for a fool
Don't represent me right now
I'll turn around and leave you for another
Oh [I wanna spend my time]
Oh yeah
[You'd better come around]
Whatever you want
[Even though I want you]

Whatever you need
[Even though I'm still alive]
[I bring your lovin' down baby]Whatever you want
Whatever you need
I wanna be the one that gives it to you
The longer it takes
The more my heart breaks
Don't be a fool boy don't make me waitWhatever you want
(stay)
Whatever you need
(stay)
I wanna be the one
(stay baby)
That gives it to you
(stay)The longer it takes
(stay)
The more my heart breaks
(stay)
Don't be a fool boy
(stay)
Don't make me wait
