Kiss Me Last

We The Kings

Don't read your list to me
You know I've got my own
Rewrite your history
'Cos no-one needs to know, whoa-oh
Won't change a thing for me
So just kill the standoff
Bury the memories
Here's where the story ends
Tonight
(Chorus)
Kiss me last 'cos I don't care
You're choking on your words
Kiss me last, the past is past
Don't ask, don't tell me girl
When will you wake up
And just for once don't expect the worst
Kiss me last don't care who kissed you first
The party the night we met
No sleep 'til the sun
There's no way I could forget
Chasing shots down with your tongue, whoa-oh
We lay on your feather bed
Tangled in sheets
You've heard this song before
But it's finally you and me

Tonight
(Chorus)
Kiss me last 'cos I don't care
You're choking on your words
Kiss me last, the past is past
Don't ask, don't tell me girl
When will you wake up
And just for once don't expect the worst
Kiss me last don't care who kissed you first
Now here we go
Chasing our tails
Back to the start
Why do we always end up here

Stop counting your fingers
Don't tell me that your love hurts
(Chorus)
Kiss me last 'cos I don't care
You're choking on your words
Kiss me last, the past is past
Don't ask, don't tell me girl
When will you wake up
And just for once don't expect the worst
Kiss me last don't care who kissed you first
I don't care who kissed you first
I don't care who kissed you first
