

Make You Mine

Black Lips

Waking up, you hit the ground, running
As long as plastic ... while the river streams keep on flowing
You're leaving town, it's a brand new day
You wasn't..... while those wheels keep on turning I need a little loving, tell me everything will be alright
You showed it to my gonna come home, home, tonight
Gonna make you make you mine Gimme your sign, I only got some time tomorrow
.....
I wish you would, and hold on tight
.....been throwing down while having fun out on a Saturday night I need a little loving, tell me everything will
be alright
You showed it to my gonna run home, home, tonight
Gonna make you make you mine I need a little loving, tell me everything will be alright
You showed it to my gonna come home, home, tonight
Gonna make you make you mine
