# Light As A Feather

## Starflower

What does it take to make you feel, get you excited
To see you smile?
What does it take to see my world, I know you?ll like it
For once go wild
Baby, but you?re so cold with me, be free, yeah
Come see the sights Lover, there?s a city you?ve never seen before
Come live by night
What?s it gonna take for me to see you get down yeah
Get, get down yeah
Get down yeah
(Let?s go)
Get down yeah x3
What does it take to feel that beat, let it inside you
Touch your soul
What does it take to just let the rhythm guide you
And take control
Baby, don?t be scared, don?t be self concious
Close your eyes
Lover, are you feeling light as a feather?
Ready to fly
What?s it gonna take for me to see you get down yeah
Get, get down yeah
Get down yeah x 4
What?s it gonna take for me to see you get down yeah

Iggy Azalea:
Top of the penthouse, come party with us
Lose control,
I heat up when we touch
Take for tonight belongs to us
I?ll be your drug, come get high, feel my rush
Baby, baby, let?s get crazy
Maybe I?ll introduce you to amazing
Show me your wild side,
I?ll be your Vegas
Don?t hold back, it?s yours for the taking
What does it take to make you feel, get you excited
To see you smile?
What does it take to see my world, I know you?ll like it

For once go wild
Baby, but you?re so cold with me, be free, yeah
Come see the sights Lover, there?s a city you?ve never seen before
Come live by night
What?s it gonna take for me to see you get down yeah
Get, get down yeah
Get down yeah
(Let?s go)
Get down yeah x7
