

# Light As A Feather

## Starflower

What does it take to make you feel, get you excited  
To see you smile?  
What does it take to see my world, I know you'll like it  
For once go wild  
Baby, but you're so cold with me, be free, yeah  
Come see the sights Lover, there's a city you've never seen before  
Come live by night  
What's it gonna take for me to see you get down yeah  
Get, get down yeah  
Get down yeah  
(Let's go)  
Get down yeah x3  
What does it take to feel that beat, let it inside you  
Touch your soul  
What does it take to just let the rhythm guide you  
And take control  
Baby, don't be scared, don't be self conscious  
Close your eyes  
Lover, are you feeling light as a feather?  
Ready to fly  
What's it gonna take for me to see you get down yeah  
Get, get down yeah  
Get down yeah x 4  
What's it gonna take for me to see you get down yeah

Iggy Azalea:  
Top of the penthouse, come party with us  
Lose control,  
I heat up when we touch  
Take for tonight belongs to us  
I'll be your drug, come get high, feel my rush  
Baby, baby, let's get crazy  
Maybe I'll introduce you to amazing  
Show me your wild side,  
I'll be your Vegas  
Don't hold back, it's yours for the taking  
What does it take to make you feel, get you excited  
To see you smile?  
What does it take to see my world, I know you'll like it

For once go wild  
Baby, but you're so cold with me, be free, yeah  
Come see the sights Lover, there's a city you've never seen before  
Come live by night  
What's it gonna take for me to see you get down yeah  
Get, get down yeah  
Get down yeah  
(Let's go)  
Get down yeah x7
