Swollen (Francois K Vocal Mix)

Bent

With you my darling, more peaceful inside
Don't need anything else to make me feel alive
You electrify me and I want to be in your arms
For always, for alwaysOur love is swollen
Made of the quietest shade of loud
Holds me like an anchor
Floats just like a cloud, a cloudOur love is swollen
Made of the quietest shade of loud
Holds me like an anchor
Floats just like a cloud, a cloudOur love is swollen
Made of the quietest shade of loud
Holds me like an anchor
Floats just like a cloud, a cloud
