

# Swollen (Francois K Vocal Mix)

## Bent

With you my darling, more peaceful inside  
Don't need anything else to make me feel alive  
You electrify me and I want to be in your arms  
For always, for always Our love is swollen  
Made of the quietest shade of loud  
Holds me like an anchor  
Floats just like a cloud, a cloud Our love is swollen  
Made of the quietest shade of loud  
Holds me like an anchor  
Floats just like a cloud, a cloud Our love is swollen  
Made of the quietest shade of loud  
Holds me like an anchor  
Floats just like a cloud, a cloud
