

# The Year That I Was Born

[Jesse Malin](#)

Your favorite film opened up  
the year that I was born  
I didn't know what to say to you  
but I knew we'd get along  
Get on, get on, get on  
They say it's all about the chase  
Get on, get on, get on  
Some things you just can't escape  
Bye, bye, bye  
When all your life goes by  
Bye, bye, bye and bye  
I didn't want to let you down  
but I think I might have spoke to soon  
I never said I could be friend  
with everybody in the room  
Get on, get on, get on  
See the lines on my face  
Come on, come on, come on  
You know the night is getting late  
Bye, bye, bye  
When all your life goes by  
Bye, bye, bye and bye  
Monday, another whistle blows  
Tuesday, I'm going to a show  
Friday, I'm working stiff  
You don't know how I live  
Living hard with the elements  
and we're trying to make it last  
Your parents worked and they bled a lot  
and they never really took a chance  
Bye, bye, bye  
When all your life goes by  
Thinking about you
