

# Thick As Thieves

## Dashboard Confessional

Would it kill you to breathe?  
Is it only 17 miles  
Lay between you and me?  
I could make it if I had to I don't break easily  
You got my council thick as thieves  
If there's a crime we'll keep it secret  
For there's only trace amounts left in your blood You may be a sinner  
But you may be justified Just keep your mouth shut  
Keep your guard up  
I swear I'll make it right Will it kill me to breathe?  
Not as easy as you think  
It is between you and me  
I could fake it if I have to I don't break easily  
I need your council thick as thieves  
I have no crime to keep a secret  
It was hers, it was not mine Well, I may be a sinner  
But it wasn't me this time Just keep your mouth shut  
Keep your guard up  
I swear I'll make it right Well, listen to yourself  
There is a hemorrhage in your mouth  
It won't stop bleeding Well, you may be the trigger  
I will hold the smoking gun  
You'll get away clean  
I'll keep your secrets  
'Til the grave has swallowed me And I will never tell a tortured soul  
There burning by my side  
That I am a sinner  
I am a savior, I am a lie So keep your mouth shut  
Keep your guard up  
I swear I'll make it right
