All Fired Up

Fastway

Firin' out on all eight
Got my foot on the floor
Screamin' through the red light
Honk at everyone that I knowNever heard of danger
It's only fun that I know
Now if you're feelin' squeamish
You'll never last the end of the showAll fired up
All fired upLettin' loose with the magic
Night time celebration
Rockin' to the music
We're headed for the top positionDon't be alarmed now
Relax and go with the flow
Tonight we're proud to give ya
The fast way it's the way to goAll fired up
All fired upRunnin' to the limit
Me and my machine
Fuel injection hummer
Burnin' from the gasolineNever heard of danger
It's only fun that I know
Now if you're feelin' squeamish
You'll never last the end of the showAll fired up
All fired upTakin' flight in the distance
Hear that engine roar
Sliding in the slipstream
Never turn your back on the roadDon't be alarmed now
Relax and go with the flow
Tonight we're proud to show ya
The fast way is the way to goAll fired up
All fired up
All fired up
