

# Even Though

**Ben Hammond**

even though, even though it's cold outside  
i can't see your breath  
even though, even though you paint your eyes  
i can tell when you've been crying even though, even though even though, even though i never heard you sing  
i know what you're thinking  
even though, even though i never heard you sing  
I'm still listening, i'm still listening even though, even though i didn't lie, i didn't lie, i didn't lie  
no i didn't lie to you even though, even though i tried  
even though, even though you cried, every night  
even though, even though i cried too  
you know i never lied to you  
no i never lied to you
