

# Never Too Far Gone

[Atreyu](#)

Sometimes things turnout the wrong way  
you gotta stay strong, you gotta move on  
the hardest lessons are the ones that keep you stunned and speechless I fell the pain  
I feel the hurt  
I fell depression  
I live in my strength remember that your best friend is the strength in your heart  
the fire in your soul  
and the love in your eyes though its been said many times before  
by smarter people with larger minds than mine  
love in your heart  
love in your heart will conquer all.
