

Your Way of Thinking

Bodyjar

When you think of how It may change If everyone was just like you Would it satisfy To see the world change
for you You're not so strong Maybe for a while You'd sit back and laugh but Not for very long realising that
Wake up and see Wake up and Realise Fucking categorise Don't fantasise People from what they own Don't
ever try To see through my eyes 'Cause you'll never understand Wake up and see I can see through your eyes
Wake up and You're the one I despise Wake up and see, wake up and see Wake up and see, wake up and
