Raw. Real.

Cherri Bomb

Verse-Cage it up, let it free
This is you, this is me
When it ends, we begin
Say a prayer, as we sinFollow rules or rebel
Keep secrets, Live to tell
Words are false, but it's true
Where's the line me and youMake it right, can't you see
Let's unite, victory
Make it right instantly,
Let's unite, victoryChorus-
This is life, this is death
This is right, this is breath
This is true, how I feel
This is raw, this is realVerse 2-
This is back, this is front
This is black, this is white
This is bad, this is want
These are tears I won't cryThis is in, this is out
This is up, this is down
Make it right, give it more
Let's unite, with this chordChorus-
This is life, this is death
This is right, this is breath
This is true, how I feel
This is raw, this is realBridge-
Don't take what you need
Leave me here just to bleed
I can break just like you
I can cut, I can bruise
This is raw
This is realPre-Chorus
Make it right, can't you see
Let's unite, victory
Make it right instantly,
Let's unite, victoryChorus-
This is life, this is death
This is right, this is breath
This is true, how I feel
This is raw, this is real
