

Vision

Vacationer

Caught another vision
My eyes have got frozen in the stare
Better than a painting
My mind, I can feel it when it's thereIt's true beauty
It's true beautyCaught another moment
All mine, got it cradled in my hands
I got a glowin', so bright
it's illuminating through the skinBetter than it has been
All mine, oh love could not compare
Now i've got it goin'
All life has started over everywhereIt's true beauty
It's true beauty
It's true beauty
It's true beauty
