

Soft Coda (Nedry Remix)

North Atlantic Oscillation

Looking to the glide of your hands / With their history quenched
No explainable source / For the depths to cite
Floating on the peaks of your wake / That the ocean took back
Greedy for a theme / And your kindness as well
No forcefield acts on bones inside / You said in a soft coda,
I'm not yet done
Everytime your legacy chimes / It's a jubilee
And a funeral march / And the question why
This would be the day that you came / To our revelling town
To ignite our minds / There would be different tears
No forcefield acts on bones inside / You said in a soft coda,
We almost won.
