Hot Night

Jessica Folker

Here in the night
There's a perfume in the air
You can almost smell the danger
Pressed in a crowd
You can feel the heat flow
In the touch of every strangerWe're out on the town
And it's passion that we're after
Keep fanning the flame
Just a little fasterIt's gonna be a hot night
We're gonna have a hot night tonight
It's gonna be a hot night
We won't get no sleep tonight
Too hot, it's too hotThe need in your eyes
Hits me to the heart
With a shot of stimulation
A moment with me
In a moment I will see
The burning fascinationNo stopping it now
We've got to stay in motion
We're two-foot of fire
Two-foot of emotionIt's gonna be a hot night
We're gonna have a hot night tonight
It's gonna be a hot night
We won't get no sleep tonight
Too hot, it's too hotIt's gonna be a hot night
We're gonna have a hot night tonight
It's gonna be a hot night
We won't get no sleep tonight
Too hot, it's too hotNo stopping it now
We've got to stay in motion
We're two-foot of fire
Two-foot of emotionIt's gonna be a hot night
We're gonna have a hot night tonight
It's gonna be a hot night
We won't get no sleep tonight
Too hot, it's too hotIt's gonna be a hot night
We're gonna have a hot night tonight
It's gonna be a hot night
We won't get no sleep tonight

Too hot, it's too hotIt's gonna be a hot night
We're gonna have a hot night tonight
It's gonna be a hot night
We won't get no sleep tonight
Too hot, it's too hotIt's gonna be a hot night
We're gonna have a hot night tonight
It's gonna be a hot night
