

Hot Night

Jessica Folker

Here in the night
There's a perfume in the air
You can almost smell the danger
 Pressed in a crowd
 You can feel the heat flow
In the touch of every stranger
We're out on the town
 And it's passion that we're after
 Keep fanning the flame
Just a little faster
It's gonna be a hot night
 We're gonna have a hot night tonight
 It's gonna be a hot night
 We won't get no sleep tonight
Too hot, it's too hot
The need in your eyes
 Hits me to the heart
 With a shot of stimulation
 A moment with me
 In a moment I will see
The burning fascination
No stopping it now
 We've got to stay in motion
 We're two-foot of fire
Two-foot of emotion
It's gonna be a hot night
 We're gonna have a hot night tonight
 It's gonna be a hot night
 We won't get no sleep tonight
Too hot, it's too hot
It's gonna be a hot night
 We're gonna have a hot night tonight
 It's gonna be a hot night
 We won't get no sleep tonight
Too hot, it's too hot
No stopping it now
 We've got to stay in motion
 We're two-foot of fire
Two-foot of emotion
It's gonna be a hot night
 We're gonna have a hot night tonight
 It's gonna be a hot night
 We won't get no sleep tonight
Too hot, it's too hot
It's gonna be a hot night
 We're gonna have a hot night tonight
 It's gonna be a hot night
 We won't get no sleep tonight

Too hot, it's too hotIt's gonna be a hot night
We're gonna have a hot night tonight
It's gonna be a hot night
We won't get no sleep tonight
Too hot, it's too hotIt's gonna be a hot night
We're gonna have a hot night tonight
It's gonna be a hot night
