

Till It Gets Wet

Slightly Stoopid

But I'm just a man, but I'm just a man, but I'm just a man
But I'm just a man you know, a wuh no
But I'm just a man, no, but I'm just a man, but I'm just a man
But I'm just a man you know, a wuh no But I want your pussy till that shit gets wet
The type of pussy makin' a [Incomprehensible] man them not forget
But I want your pussy till that shit gets wet
The type of pussy makin' a [Incomprehensible] man them not forget They want to say, the little woman
But a tell me that you're straight from the heart
But I want the woman that could tear mine apart
But I want the woman comin' up tellin' me that you'll say, yes
But I want the reason that you're givin' up for today But I'm just a man, but I'm just a man, but I'm just a man
But I'm just a man you know, a wuh no
But I'm just a man no, but I'm just a man, but I'm just a man
But I'm just a man you know, a wuh no But I want your pussy till that shit gets wet
The type of pussy makin' a [Incomprehensible] man them not forget
But I want your pussy till that shit gets wet
The type of pussy makin' a [Incomprehensible] man them not forget They want to say, the little woman
But a tell me that you're straight from the heart
But I want the woman that could tear mine apart
But I want the woman comin' up tellin' me that you'll say, yes
But I want the reason that you're givin' up for today But I'm just a bad boy, yes me just a rude boy, boy
But a one, he said he, "What's your duty boy?"
But-a-whatch-a bad boy, yes me just a rude boy, boy
But a one, he said he, "What's your duty boy? "
