

Angel Without Wings

Zao

Hold her in your right hand
And guide her safely home
Brush away all the thorn
And all the stones You're my angel without wings
You're my angel without wings
You're my angel, my angel, my angel Hold her in your right hand
And guide her safely home
Brush away all the thorns
And all the stones When I was crying you never left my side
When I, I was dying you never left my side
You're always, always there for me
You're always, always there for me
You're always, always there for me
You're always, always there for me You're my angel without wings
You're my angel without wings
You were always there for me
You were always without wings You're my angel without wings
You're my angel without wings
You're my angel, my angel, my angel When I, I was dying you never left my side
When I, I was crying you never left my side
You're always, always there for me
You're always, always there for me
You're always, always there for me
You're always, always there for me You're always, always there for me
You're always, always there for me
You're always, always there for me
You're always, always there for me You're my angel without wings
You're my angel without wings
You were always there for me
You were always without wings You're my angel without wings
You're my angel without wings Without wings, without wings
Without wings, without wings
Without wings, without wings
