

Why Not Nothing?

Richard Ashcroft

I ain't got time for your politics
Or your masqueraded Machiavellian tricks
Goodbye, you know I ain't got time You don't deny it, it's abuse of the cross
Let's get some of God squad in the dock
Where they belong, where's your song? It's a, I know that your wrong
You gotta learn the way you do
Take my advice, don't let 'em treat you like a fool
Hey babe, I'm gonna look you in the eye
That's when we started singing Why not, why not nothing?
Why not, why not nothing?
Why not, why not nothing?
Why not, why not nothing? Tonight I need survival through your everyday
Who the fuck are you when you take that mask away?
Friend, I don't know, oh, where do we go? I do not know what's real on the screen
Hollywood's directing world war 3
What's going on? Oh pass me the gun It's a, I know that your wrong
You gotta learn the way you do
Take my advice, don't let 'em treat you like a fool
Hey babe, I'm gonna look you in the eye
That's when we started singing Why not, why not nothing?
Why not, why not nothing?
Why not, why not nothing?
Why not, why not nothing? Why not, why not nothing?
Why not, why not nothing?
Why not, why not nothing?
Why not, why not nothing? 'Cos it's a, I know that you're wrong
You gotta learn the way you do
Take my advice, don't let 'em treat you like a fool
Hey babe, I'm gonna look you in the eye
That's when we started singing Why not, why not nothing?
Why not, why not nothing?
Why not, why not nothing?
Why not, why not nothing? It's a I know that your wrong
You gotta learn the way you do
Take my advice, don't let 'em treat you like a fool
Hey babe, I'm gonna look you in the eye
That's when we started singing Why not nothing?
Oh, why not nothing?
Oh, why not nothing?

Oh, why not nothing?
