

# Do the Dream

## D.R.I.

Conform, it's only need  
Distort, not what it seems  
Resort to the deed  
Report to the machine Modern day vendor that sells you hell  
A line is formed, will you live to tell?  
Money machine, become all one  
Hand to hand, the damage done Conform, no not alone  
Distort, what's always shown  
Resort the need again  
Report the machine again Was it over when it started?  
Has the warmth since departed?  
Did you put your life on hold?  
On the shelf while firing the load?
