

# Music Makes Us Beautiful

## Oh No Not Stereo

I walk alone  
down the road to the ocean  
I'm wishing most  
that my love was on the west coastIt's music that makes us who we are  
It makes us beautiful  
Music makes us who we are  
and baby it did a number...Outer space  
I keep thinking about what's right for me  
I promise you  
That you're the girl that I'm really intoIt's music that makes us who we are  
It makes us beautiful  
Music makes us who we are  
and baby it did a number on youWe don't want war  
We just want something to live for  
We don't want....  
(FUCK WAR)  
We just want something to live forIt's music that makes us who we are  
It makes us beautiful  
Music makes us who we are  
and baby it did a number on you.
