

Breathe for Me

[Ncm](#)

Listen to
Listen to me
I need you
A disaster's waiting to happen
These are the things I can't see through
When I'm saddened It's not me
It's not me
Just give me some room to breathe
Or breathe for me
Breathe for me Is this what it's about
I've reached for the strength to hold out
I'm leaving
The tears keep burning my eyes
And I have lost the strength to keep this alive It's not me
It's not me
Just give me some room to breathe
Or breathe for me
Breathe for me
Breathe for me I can't explain what I feel
But I know it's for real
Don't let me go back down It's not me
It's not me
Just give me some room to breathe
Or breathe for me
It's not me
It's not me
Just give me some room to breathe
Or breathe for me
Or breathe for me
